NOTICE OF FILING OF LIST OF QUALIFIED CLAIMANTS

PLEASE TAKE NOTICE THAT pursuant to the Order Establishing Modified Plan of Allocation and Awarding Plaintiffs' Compensation, dated June 7, 2010, directing Class Counsel to file a list of qualified claimants and the amount to be paid to each qualified claimant, attached as Exhibit A hereto is a list of all qualified claimants and the amount to be paid to each qualified claimant by the Settlement Administrator.

Further, pursuant to the Court's Orders dated March, 26, 2010 and April 19, 2010 directing Class Counsel and the Objectors to negotiate a modified plan of allocation, Class Counsel worked with the Settlement Administrator, Rust Consulting ("Rust"), to prepare several different proposed revised plans of allocation. The negotiations between Class Counsel and the Objectors resulted in the Modified Plan of Allocation approved by the Court on June 7, 2010.

As part of the negotiation process, Class Counsel provided the Objectors with the amounts they would receive pursuant to the Modified Plan of Allocation. On May 19, 2010, Rust provided Class Counsel with a spreadsheet reflecting, subject to slight adjustments noted *infra*, each potential qualifying claimant's payment under the Modified Plan of Allocation. Class Counsel believed the spreadsheet reflected the final amounts, again subject to slight adjustments

noted *infra*, to be distributed pursuant to the Modified Plan of Allocation. That same day, Class Counsel provided the Objectors the amounts they would recover under the Modified Plan of Allocation and the Objectors agreed to withdraw their objections based on the results.¹

On July 12, 2010, Class Counsel learned that the May 19, 2010 spreadsheet provided by Rust, and which formed the basis of the withdrawal of the objections by the objectors, included an incorrect allocation of \$400,000 to two categories of distribution (Modified Plan of Allocation at §§ III.A.3. and IV.A.2.a.). As a result of this mistaken over-allocation to these two categories in the May 19 spreadsheet, one objector group, the Bolling Intervenors, which is comprised of 116 claimants, would receive less overall under the Modified Plan of Allocation as approved by the Court on June 7, 2010 than they expected pursuant to the May 19 spreadsheet. The other Objectors were not negatively impacted, on net, by this error.

After discovering this error on July 12, 2010, Class Counsel approached Rust to work out an agreement whereby Rust would forgo payment on its current outstanding invoices and anticipated costs to complete and contribute additional funds which together equal \$250,000. That amount will be applied to the Bolling Intervenors' recovery in addition to amounts they will receive under the Modified Plan of Allocation. Despite still receiving less overall than they would have under the May 19 spreadsheet, the Bolling Intervenors have accepted this arrangement.

The attached list of all qualified claimants and the amount to be paid to each qualified claimant by the Settlement Administrator reflects this additional payment. No claimant is negatively impacted by the payment of these additional funds by Rust.

¹ The objectors were also made aware at or about May 19, 2010 that there would be slight reductions in the final distribution amount of about ½ of one percent as two categories of distribution had not yet been included in the May 19 spreadsheet and a final determination of the amounts available for distribution had not yet occurred.

Dated: New York, New York
